<b>STUDENT RECORDS</b>	<b>Related Administrative Procedures:</b>

**Purpose:** The Division expects staff members to collect only the necessary information required to produce and maintain records for purposes related to educational programming. The information in student records serves the following purposes:

- To provide working records about students currently enrolled in the school division;
- To provide a record of each student’s attendance, achievement and personal information that is pertinent to the student; and
- To serve as a source of information in supporting student transitions.

Student records are for educational purposes only. The records are confidential and, apart from access as noted in this administrative procedure, shall be accessible to educational professionals and appropriate professional support staff only. All records created by the Division and its staff are owned by the Division. This procedure provides systemic support for timely and relevant information sharing among collaborative teams as well as smooth educational transitions and the best possible opportunities for success for all Pre-Kindergarten to Grade 12 students inclusive of those with intensive needs.

### 1) Definition

- a) Student Records - For the purposes of this procedure, Student Records are defined as records within the meaning of *The Local Authority Freedom of Information and Protection of Privacy Act* (LAFOIP) that relate directly to an individual student, and which are collected and/or maintained by the Board or by a person acting on behalf of the Board, no matter what medium is employed for storage of the record. LAFOIP defines record as “a record of information in any form and includes information that is written, photographed, recorded or stored in a manner, but does not include computer programs or other mechanism that produce records.”
- b) Cumulative Records - Cumulative Records is the term used to refer to any working records for currently enrolled students from Prekindergarten to Grade 12 (see Section 2(a)). A Cumulative Record should be created in the first grade that a child begins attending school. The student’s Cumulative Record is the official compilation of all information maintained by the school for the student, including SERT and/or Counsellor files. The record contains factual and objective information regarding a student’s academic progress, mid-term and final marks, adaptations

and attendance. The Cumulative Record is also valuable for assisting the successful transition of students to another classroom, grade or school, either within or outside of the division.

- c) Personal Information - LAFOIP defines personal information as including race, creed, religion, colour, sex, sexual orientation, family status, marital status, disability, age, nationality ancestry, place of origin, education, criminal history, financial activities, and views or opinions of another person about the individual. This is a non-exhaustive list.

2) Procedures

The school principal, except where noted, is responsible for the collection, maintenance, and release of student records. The classroom teacher shall be responsible for entering data in the Cumulative Record.

a) Cumulative Records

- i) Cumulative Records contain information relevant to a student’s educational program.

The following is a set of requirements for the contents of the Cumulative Record:

The following information should **not** be included in the Cumulative Record:

- Scores from screening tools that assess children's readiness for formal learning (e.g. the Early Years Evaluation) should not be retained in the Cumulative Record after Grade 3.
- Personal counselling notes regarding the student and information related to the student's involvement as a young offender (stored separately and securely by counselling staff).
- For students involved in the Justice system, information should be stored separately from the student's other records in a secure location and destroyed when the information is no longer required for the purposes for which it was disclosed.

- When reviewing files, information that is not necessary for the continuing educational needs of the student should be removed from the Cumulative Record (see Retention and Disposal of Student Records below).

**Note:** Name changes for:

- Adopted children – birth family information is maintained as highly confidential information when an adoption occurs. Schools should take reasonable steps to protect students’ personal information and guard against unintended disclosure. Students’ personal information includes name and address, contact information, academic records, etc. To ensure the identity of the adopted student remains confidential and the student receives the best education possible, all information related to the student’s previous assessments must be retained.
- Gender change – schools should take reasonable steps to protect students’ personal information and guard against unintended disclosure. Also, all information related to the student’s previous assessments must be retained.

Refer to section 4.1.5 of the *Registrar’s Handbook for School Administrators* for information about the process for name, birthdate or gender changes for current students or contact Student and Educator Services, Ministry of Education.

ii) Separate files with student support information can be created and stored in more than one designated secured location within a school (e.g. school counsellor’s and/or SERT’s office) as long as it is documented within the Cumulative Record component stating its nature, whereabouts and date created (see Cumulative Record Insert Cross-Reference Listing form below). Each of these separate files are considered to be part of the main Cumulative Record. All files should be accessible to those who need them and secure from those who should not see them:

(1) Access to certain documents within a file can be limited to appropriate personnel by clearly identifying the file/envelope as containing sensitive personal health information and when appropriate, indicating the professionals who can have access to the file and the information within it (e.g. Psychologist’s report or Counsellor notes).

iii) Each active working record is to be reviewed annually by a member of the professional staff designated by the principal to ensure that it is kept current and to eliminate information that no longer serves an educational purpose. Notation of items removed, the date of removal and the person who removed them is to be kept in the file along with the signature of two (2) authorized persons who removed and witnessed the destruction (see Retention and Disposal form).

iv) Unless directed to another location by order of the Director of Education or designate, student Cumulative Records shall be stored in a secure location at the school.

b) Collection of Information

i) Subject to legislative requirements and regulations the Board authorizes collection, storage and use of relevant, reliable and objective data in the form of student records.

  - (2) A student aged 18 years or older.
  - (3) A student 16 years of age or older and living independently.
- iii) The written consent should clearly identify the person or persons to whom access to the record is to be given and should clearly identify the restrictions, if any, on such access.

(a) If a person requesting the correction is not satisfied with the decision of the principal, they may wish to make a formal application under LAFOIP (see Section f(iii)).

j) Review of Student Records

Every school shall conduct a regular review of its student record management system to ensure continuing compliance with policies, regulations and procedures.

k) Transfer of Student Records

The school principal, or person designated by the principal, shall manage the receipt and transfer of Cumulative Records. All personal information that was gathered with the purpose of educating the student, including critical information with respect to accommodating students with diverse needs, can be disclosed/transferred to the new school. The records are necessary for the education of the child and transfer is a disclosure consistent with the purposes for which the record was compiled or created, therefore, parental or student consent for the transfer is **not** required. Parents and students should be notified, however, when student records are transferred.

i) Student transferring in:

(1) As soon as possible and within five (5) working days of a student's enrolment in a school, the principal or designate shall complete the Cumulative Record Transform form below to request the student's Cumulative Record from the student's previous school. The request shall contain the name and address of the requesting school, the date of the request and detailed student information. The provincial Student Data System (SDS) provides the last location of the student's Cumulative Record.

- (2) The principal shall verify the receipt of the Cumulative Record by dating and signing the request that is provided by the student's previous school with the Cumulative Record. A copy of the request shall be sent to the student's previous school to confirm receipt of the Cumulative Record.
- (3) Upon receipt of the Cumulative Record, the principal or designate shall update the location of the Cumulative Record in SDS.
- (4) If the Cumulative Record is not received within seven working days after the request was sent to the student's former school, the principal or designate shall contact the principal of the student's former school.
- (5) If the student's former school does not have the student's Cumulative Record, reasonable attempts shall be made to locate the Cumulative Record by contacting the other schools the student has attended.
- (6) If these contacts are unsuccessful, a new Cumulative Record shall be created for the student.
- (7) If a Cumulative Record arrives at a school but the student is not currently registered in that school:
  - (a) the school should check first with the Division Office to determine if the student is enrolled in another school in the Division.
  - (b) if the student is not enrolled in the Division, the school should contact Student and Educator Services, Ministry of Education, at 306-787-6081 to confirm whether the student is enrolled in another school.
  - (c) if no current school can be determined, the Cumulative Record should be returned to the most recent school that the student attended.

ii) Student transferring out:

- (1) Upon receiving a request to transfer a Cumulative Record, the principal or designate shall send the Cumulative Record, including all the contents outlined in Section 2(a)(i) using the most cost effective, secure method that will allow the package to be tracked. Options can include Registered Mail, Priority Post and Courier to the student's new school within three working days. The request form, which indicates the date that the Cumulative Record was sent, accompanies the Cumulative Record.
- (2) The principal or designate shall keep a copy of the request until written confirmation of the transfer has been received.
- (3) If the school does not receive a written confirmation that the Cumulative Record has been received within seven working days, the principal or designate shall contact the principal or designate of the student's new school.

- (4) If the receiving school has not received the Cumulative Record, the principal or designate of the sending school shall make best efforts to recover the missing files and maintain a record of those efforts.
- (5) When a student transfers to a Custody School, the student's Cumulative Record should remain at the school from which they transferred. When program decision for the student are being made by the Custody School, a Custody School official should contact the student's previous school to discuss programming decisions and request any necessary information from the student's file.
- (6) If a school does not receive a request for a Cumulative Record within a reasonable period of time after a student has left the school, the following steps should be taken:
  - (a) The principal should run a not Re-enrolled Report through the SDS to determine whether the student has re-enrolled in another school.
  - (b) If the student appears as "not re-enrolled," steps should be taken to determine the location of the student.
  - (c) If the student does not appear on *the Not Re-enrolled Report*, the student may have registered in another school, left the province, passed the school-leaving age of 16, or is deceased.
  - (d) At this point, the sending school should retain the Cumulative Record. It is recommended that the school contact Student and Educator Services, Ministry of Education to determine if other information is available concerning where the Cumulative Record should be sent.
- (7) If a student transfers to a First Nation school or another jurisdiction the student's original Cumulative Record should remain in Saskatchewan. The following two options can be completed for providing information to the receiving school:
  - (a) A parent of guardian should be given a copy of the student's Cumulative Record. If a parent receives a copy of the student's Cumulative Record, that information becomes the responsibility of the parent, and the parent can provide the information to another jurisdiction or the First Nation school.
  - (b) A copy of the Cumulative Record can be sent directly to First Nations schools, schools outside Saskatchewan and in Canada as long as the original record is retained. This is acceptable practice because privacy legislation in other Canadian jurisdictions is very similar to Saskatchewan's privacy legislation.
- (8) If a student changes schools due to an out-of-home placement, the Child Protection Worker is to notify the principal of the child's sending school that the child has been safely relocated. The student's Cumulative Record may be transferred with the child to the receiving school. The Child Protection Worker should also inform the principal of the receiving school regarding the child's relocation.

- (9) When a student withdraws or graduates, the school must ensure that a student's permanent record in the SDS is an accurate reflection of all courses taken and marks attained.
- l) Retention of Records
- i) All records shall be maintained in accordance with *The Education Act, 1995*, and LAFOIP and their regulations.
- (1) Student records are generally kept by school divisions until students are twenty-five (25) years old.
- (2) If there are records relating to sexual assault on or by a student, or a claim involving physical abuse by a parent or guardian, those records should be retained for an extended period (seventy-five (75) years, for example).
- ii) School registers and/or records of attendance shall be kept permanently. Other records shall be retained in accordance with *The Education Act, 1995*, the *Local Government Elections Act* and *The Records Retention and Disposal Guides for Boards of Education*. See 2(a) above and Appendix A for a list of items and dates for retention or disposal, as well as the Retention and Disposal form below.
- iii) All records are owned by the Board. Individual employees cannot keep copies of any personal information of students.
- m) Disposal of Student Records
- i) Student records shall be disposed of in accordance with the disposal schedule established by the Privacy Officer/LAFOIP Coordinator.
- ii) In accordance with guidelines established from time to time by the Privacy Officer/LAFOIP Coordinator, the person responsible for the maintenance of a file containing student records shall review the file at the end of each school year and shall remove from the file any record not required for the purposes for which it was created. See 2(a) above and Appendix A for a list of items and dates for retention or disposal, as well as the Retention and Disposal form below.
