

# Connecting Android Devices to PSWifi Network

**1** Open your Wi-Fi settings on your device and tap **PSWifi** from the list of available networks.

**2** Your Android device will prompt for settings. Set them according to the below information:

|                         |                         |
|-------------------------|-------------------------|
| Phase 2 Authentication: | MSCHAPV2                |
| EAP Method:             | PEAP                    |
| CA Certificate:         | Use system certificates |
| Anonymous Identity:     | Leave blank             |
| Identity:               | Your NSID username      |
| Password:               | Your password           |

## Google Pixel example:

9:50 5G 93%

←

### PSWifi

EAP method  
PEAP

Phase 2 authentication  
MSCHAPV2

CA certificate  
Use system certificates

Minimum TLS version  
TLS v1.0

Online Certificate Status  
Do not verify
