

Calendars in Edsby

As a parent, you have access to two different calendars within the Edsby app:

- Your own personal calendar that will include events created by the division, the school or the moderator of a group you are a part of in Edsby (ex. a grad parent group, SCC, football/volleyball group etc.)
- A calendar for each of your children that includes any upcoming/missing assessments or any other events created by the teacher (ex. help times, field trips etc.)

This is the parent's calendar. You can see two upcoming events that were put into the division wide calendar and the school wide calendar.

This is the child's calendar. You can see the student has two overdue assessments and a help session scheduled by the teacher and a planned absence that was submitted by the parent. You can also see the two upcoming events that were put into the division wide calendar and the school wide calendar.
