AP-712 PURCHASING CARD	Date of implementation: Fall 2018 Date of update: November 27, 2024
	Related Administrative Procedures: AP-710 Purchasing AP-711 Conflict of Interest

Purpose: To guide the use and control of PCards (a commercial credit card) for obtaining goods and services.

PCards are used to provide an efficient method of processing and controlling the large volume of purchases by the Division which, while low in dollar value, are time sensitive for the ordering of schools and departments and consume a disproportionate amount of processing time.

Definitions:

The following definitions are cited to ensure consistent interpretation of terms used in this administrative procedure.

PCard - A special type of credit/charge card, with individualized controls, issued by a financial institution, and used to make approved purchases.

Cardholder - Employees who have been authorized to have a PCard issued to them for the purposes of making approved purchases for the Board.

Budget Manager - The specific positions within the Division that have been given authority to make expenditures from specific budgets. In schools, the budget manager is always the Principal. A budget manager may delegate their authority but cannot delegate their accountability.

Procedures:

1) Obtaining a Purchase Card (PCard):

- a) To obtain a PCard, an application must be completed, authorized by the budget manager (usually school principal or supervisor) and returned to the Finance department. This application can be requested from the Accounting Supervisor.

The application includes a PCard employee agreement, confirming they fully understand and agree to confirm to this procedure when using the PCard.

- b) Each PCard will have a unique number and will be issued in the name of the Board employee who has been authorized to use that card. The card is non-transferable to any other employee, even if that other employee is also authorized to use a PCard on behalf of the Board. Only the person to whom the card is issued may use the card.

2) Authorization to purchase:

- a) Computer devices – Purchase of computer devices, including iPads, android tablets, PCs, laptops, notebooks and/or related technology devices are subject to the approval of the IT department and established Division standards and models.
- b) Furniture – Purchases of furniture items are subject to established Division standards and models.
- c) The PCard is not intended to bypass established procedures in the school or department or offices. If budget manager's approval is required prior to making a purchase, the cardholder must obtain that authorization prior to making a purchase.
- d) The Division assumes no obligation to pay PCard expenses that are not in compliance with this procedure. The individual will be solely responsible for the rejected expenditure.
- e) All purchases made with the PCard are subject to AP-710 Purchasing.
- f) The PCard is not intended to bypass established contract arrangements for supply of material and services. If the PCard is to be used, the cardholder is expected to make themselves familiar with established contracts in place and make the purchase accordingly.

3) Programmed Limits

- a) Each Pcard will have an established monthly limit. This limit will be established by the budget manager and the Accounting Supervisor and is up to a maximum of \$5,000. Exceptions may be requested in consultation with the Superintendent of Business Services.
- b) The monthly limits can be increased to cover specific large purchases upon approval of the budget manager in consultation with the Accounting Supervisor. The budget manager may request to increase the limit for a cardholder by submitting the increase limit form to the Accounting Supervisor.

4) Supplier Category Exclusions:

- a) Certain types of suppliers are blocked for use by all PCards and the card will be declined if a purchase is attempted from one of these types of suppliers. Some examples, but not all the types of suppliers which are blocked, are:
 - Liquor vendors
 - Gambling transactions
 - Automated cash disbursement

5) Other limits:

In addition to the programmed limits, cardholders must not use a PCard in the following circumstances:

- a) Any purchase intended to bypass the Division's obligation to the competitive bidding process.

 - i) An exception may be approved by the Accounting Supervisor when the use of a gift card by the vendor is required to access local discounts and receipts are maintained to support the value of the gift card.
 - ii) All other requests for exceptional circumstance must be pre-approved by the Deputy Director of Division Services, CFO, CHRO, otherwise the purchase will be the financial responsibility of the employee.
 - j) Temporary help

- a) PCards are not to be used for personal use such as meals, shopping, etc. Personal use of a PCard could result in immediate cancellation of the card and further disciplinary action as deemed necessary.
