

Spirit eLearning

Spirit eLearning School virtual classrooms mirror typical Prairie Spirit classrooms in terms of daily schedule, routines and expectations. Students have the opportunity to meet in whole class groups, small groups with their peers and individual one-on-one virtual meetings with their teachers. Learning opportunities will also include working independently and accessing teacher support when needed.

Classes are structured with synchronous class meetings, with some independent work expected throughout the school day. To access Spirit eLearning School classes, students are required to have technology and internet access throughout the school day. For more information specific to PSSD's Spirit eLearning School, please contact the school at elearning@spritsd.ca or 306-683-2809.
